## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Kojima et al. (5,458,673).

3. Kojima et al. '673 teach an exhaust gas particulate filter system, comprising a honeycombed filter having a multiplicity of cells surrounded by partitioning walls for trapping particulates, and a bypass/regeneration system that diverts exhaust gas from the filter after a pressure loss increases to a predetermined value from particulate depositing (figures 9, 23, col. 9, line 35 to col. 9, line 36). When the gas is diverted, the pressure loss is no longer increased. The filter must inherently be designed so that it does not melt during use.

### ***Drawings***

4. The drawings were received on November 12, 2003. These drawings are approved.

### ***Allowable Subject Matter***

5. Claims 3 and 6-14 are allowed.
6. The following is an examiner's statement of reasons for allowance: The examiner agrees with applicant's statements and arguments on how claims 3 and 6-14 distinguish over the prior art. With respect to Dimick et al. '966, the examiner agrees that the upper end cannot be taken to

be the downstream end because the caps (18") would be blown off from the exhaust gas pressure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

7. Applicant's arguments with respect to claims 1 and 2 have been considered but are moot in view of the new ground(s) of rejection. The remaining claims are allowable and outstanding rejections of those claims are withdrawn.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
